# Worms

Hundreds of children and adults have worms, but are treated for other diseases. The symptoms—indigestion, with a desire to vomit, constipation, diarrhea, toothache, head and full belly with occasional griping and colic pains, the worms are present in the bowels, causing a sharp, dry cough, a grinding of the teeth, starting during sleepless hours and often in asthma, emaciation.

**TRUE'S ELIXIR**

In the best worm remedy made, it has been in use since 1851, it is purely vegetable, and contains no animal or mineral parts. It cures all worms, present or not, and relieves the condition of the intestines, and removes all intestinal worms, including hookworms, roundworms, pinworms, and threadworms. A positive cure for Constipation and Diarrhea, and a valuable remedy in all forms of complaints of children. Price 25 cts. Ask your druggist for H. A. F. TRUE & CO., Auburn, Me. Special treatment for Worms.

## About the State

**SAY BE A STYLISH ONE, BUT IT MAKES TROUBLE**

A man usually buys a hat that's "up-to-date," but the modern hat for men has to answer for many things. Headbands are growing more numerous, and hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of Dandruff, it is time to sign up those countless germs are at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbold's Herpicide to the scalp—it will kill the germs and health is sure to result.

Sold by leading druggists. Send 25c, C. S. Newbold, 200 Franklin Street, Boston, Mass.

One Dollar Bottles Guaranteed.

E. A. Drown, Special Agent.

from the housewife, so that the whole world would know the fact."

It is this proclaiming of all that pertains to them that has caused the trans-Mississippi and Pacific coast regions to grow in population and to bring about in a few years an increase in land values from nothing to better than as they run, \$130 per acre. It is idle to deny the fact that farm or land values in Vermont to-day are twenty-five per cent higher.

Manchester had some thing of an innovation recently in a painting bee, at the home of Mr. and Mrs. Charles Bundy. H. B. Bundt took ten of his painters and went to work on the house and in an hour and a half the job was completed.

Directly over it runs a perforated pipe, and when the miles have dispersed themselves in the water in the tub the shower head is turned on. The spray with which a mile will hurry to the turn when the day's work is over is proverbial, yet with all their desire to get the second meal of the day they have to be driven out of the bath.

One old fellow is said to take such delight in the amount of coaxing will get him to leave the tub until he has had at least ten minutes of the fun. Others will not leave the tub until the shower is turned on, and it seems that this feature is the most enjoyable. Some of them, the mile foreman says, will look at the attendants longingly and then spray their heads appealingly toward the spray pipe until some one turns it on.

The Springfield Electric Railway company has begun the construction of a large park, similar to the Barber park at Bellows Falls. The grounds are being cleared up, the timberline has been cut, giving an excellent view of the Connecticut river, and seats will be placed in various places. A large dancing pavilion is to be erected and it is planned to hold dances every week there.

The park will be lighted by electricity and rows of lights will extend to the car line. It is hoped to open it to the public as soon as July 1.

President John M. Thomas of Middlebury college announces that the number of contributors to the gymnasium fund is 204, a gain of 50 within the past month, and the fund now stands at \$47,418, leaving \$16,598 still to be secured.

This amount, in order to make sure of success, will be used in the coming week. June 4, Barton Hepburn of New York, 71, subscriber \$25,000 to the general fund of \$180,000, which it is necessary to raise in order to obtain the \$300,000 offered by the general education board.

C. F. Smith is installing all the latest improvements on the Lapey dairy farm in Morrisville, having put in eight milk-milk machines, each of which will milk two cows at a time, operated by a gas-engine, a two-horsepower electric motor to run the churn and washing machine, a seven-horsepower electric motor for running the ensilage cutters, and, as soon as possible will install a three-horsepower electric motor to run the milling machines, and will put incandescent lights in his house and barn. He will also make improvements in the stable, which will enable him to keep up between 70 and 80 cows in one stable.

NATIVE VERMONTER PROMINENT.

Managed 35,000 Concert and Lecture Tours. Saved Many by Mine. Patti

Henry Lake Slayton, who, as president of the Slayton Lyceum bureau in Chicago, is said to have brought out more prominent lecturers and to have supervised more concert and lecture tours than any other man, died Sunday, June 12.

Mr. Slayton retired from active business one year ago, when the institution of which he was president was merged with another. At that time he was managing lecture tours for William Jennings Bryan, Senator Robert M. La Follette, Senator Tillman and other notables.

Born at Woodstock, Vt., May 20, 1814, he was educated at Norwich University, and previous to and during the first part of the Civil war he was at the head of the militia of the state of New Hampshire. As soon as the emancipation was issued, he joined the union army and was made first Lieutenant in the second United States colored Infantry, in which he served in the gulf states and Florida.

He was mustered out in 1865 and finished his study of law the following year, graduating from the Albany Law school of Albany, N. Y., in the class of former President William McKinley. He was admitted to the bar in New York in 1867, and the following year was admitted to the Illinois bar. He practiced in Chicago until the time of the great fire, when he lost all his possessions and went South, after being appointed superintendent of public schools for the state of Texas.

In 1874 he founded the Lyceum bureau. In the twenty years ending with 1900, he had managed 35,000 tours of various kinds, among them several made by Miss Patti.

VERMONT APPLE GROWING.

We offer extra inducements to buy here every Saturday. New Potatoes have arrived. Better have some for Sunday. Not high.
